ACT Review Course Content.

The five subject areas on the ACT test will be reviewed: Math, Reading, Science Reasoning, English, and Writing. Considerable attention will be given to math and English skills. Students will receive an ACT Review course book along with memorization sheets, and worksheets. These materials give examples and explanations; they have over 1500 drills for students to work. Much of the information presented in this book can also be utilized to excel on the SAT.

Credible Instructor.

Unlike most test preparation providers, our course is taught by a tenured Capital University professor, Dr. Lynn Dailey. Lynn holds the prestigious Moor Endowed Chair for excellence in teaching and scholarship and excels on the ACT test.
